

Quality System Manual		
Prepared by: T Newman	QMPOL 3.1.2 – Environmental Policy	Date: 29/03/2018 Issue 3
Authorised by:	Managing Director	

Environmental Policy

Bevisol Limited recognises the need for sustainable development and is committed to the principles of environmental protection on a continuing basis.

Environmental management is integral to the operation of our business and our directors, managers, employees and contractors all have a role to play in helping us to achieve our environmental objectives.

Bevisol considers Environmental systems for their suppliers as part of the supplier approval process.

We aim to

- Monitor and optimise energy usage
- Optimise the usage of raw materials
- Encourage recycling including raw material packaging
- Minimize Waste
- Comply with all relevant legislation
